

**FRANKLIN COUNTY BOARD OF COUNTY COMMISSIONERS
REGULAR MEETING
COURTHOUSE ANNEX – COMMISSION MEETING ROOM
MAY 1, 2018
9:00 AM
AGENDA**

The Board of County Commissioners asks that all cell phones are turned off or placed on silent (vibrate) mode. If you would like to comment on any matter, when recognized by the Chairman, state your name, sign the speaker log, and please adhere to the 3-minute time limit. Any handouts (information) for distribution to the Commission must be submitted to the Board Secretary (Clerk's Office) or to the County Coordinator on or before the Thursday prior to that Tuesday's meeting. Failure to do so will result in your removal from the agenda or a delay of any action relating to your request until a future meeting.

- 9:00 AM** **Call to Order**
Prayer and Pledge
Approval of Minutes
Payment of County Bills
- 9:10 AM** **Department Directors Report**
Howard Nabors – Superintendent of Public Works
Fonda Davis – Solid Waste Director
Pam Brownell – Emergency Management Director
Erik Lovestrand – Extension Office Director
- 9:30 AM** **Public Comments (3-minute time limit)**
- 9:45 AM** **Open Request for Proposals**

DIRECTOR’S REPORT

FOR: The Franklin County Board of County Commissioners

DATE May 1, 2018

TIME: 9:00 A.M.

SUBJECT(S):

ST. GEORGE ISLAND LIGHTHOUSE BASKETBALL COURT: The Lighthouse Basketball Court needs to be resurfaced and cracks patched. I have received an estimated from Premier Surface Solutions in the amount of \$7,775.00. Our goal is to find available funding in this year’s current Parks & Recreation budget. If funding is not available in our current Parks & Recreation budget than this will be a project funded out of next year’s budget.

FOR BOARD INFORMATION

Report to Board of County Commissioners

Date: May 1, 2018

Action Items:

1. Request the Board to sign a letter of support for WeatherSTEM.
2. Approval and Signing of the updated MOA with Franklin County Schools for Transportation Disadvantaged.
3. Request Approval from the Board to go out for RFQ for Special Needs Transportation.
4. Request Approval from the Board to go out for RFQ for Debris Monitoring and Debris Removal.

Information Items:

1. Franklin County EOC Staff continue to promote our Re-Entry Tag program and encourage all residents to apply for their Re-Entry Tag.
2. EOC Staff is updating our Special Needs Database to verify current information of our Special Needs Residents.
3. EOC Staff continue to promote the Alert Franklin System and encourage residents to sign up to receive updates and information from Emergency Management.
4. 04/20/18 Jennifer Daniels participated in the OrangeSTEM Demo with Bay and Walton County.
5. 04/28/18 EOC Staff/Volunteers will be attending Carrabelle Riverfront Festival.
6. 04/30/18 EOC Staff will be attending the WEBEOC/SWHUREX Training in Leon County.
7. 05/02/18 EOC Staff will be participating in the Active Shooter Exercise Planning Meeting at the Franklin County Courthouse.
8. 05/09/18 EOC Staff will be participating in the Recovery Portion of the State Hurricane Exercise.
9. 05/10/18 EOC Staff will attend the LEPC 3rd Qtr Meeting in Bristol.
10. 05/11/18 EOC Staff will be participating in the Active Shooter Exercise at the Franklin County Courthouse.
11. 05/13/18-05/18/18 EOC Staff will be attending the Governor's Hurricane Conference/Training in West Palm Beach.

Pamela Brownell

Pamela Brownell
Director

County Extension Activities April 18 2018 – May 1, 2018

General Extension Activities:

- Extension Director provided a spring wildflower presentation for the Research Reserve's guest lecture series.
- Extension Director is not attending this Board meeting due to participation in the national Association of Natural Resource Extension Professionals meeting in Biloxi this week. Will be presenting a professional poster on the sea turtle lighting retrofits being done in Franklin County.

Sea Grant Extension:

- Participated in weekly conference call to coordinate Sea turtle lighting project work and submitted documentation for a project amendment that will extend the multi-county Dark Skies project until December 2018 (currently scheduled to end in Sept.).
- Assisted with FWC "Scallop-Sitter" workshops to restore scallop populations in St. Andrew and St. Joseph Bay. Had approximately 200 citizens at two workshops who received juvenile scallops to maintain and raise in cages in the bays until spawning-age. This will protect them from predation and increase the likelihood of successful spawning.
- Extension Director participated in National Fish And Wildlife Foundation research project planning call, related to the next public update meeting that will occur on May 10 in Apalachicola.

4-H Youth Development:

- Baby chicks were delivered to local youth who are participating in the 4-H District III Chick-Chain project.
- Registration for 4-H summer camp is currently happening. Response has been great and we are currently maintaining a waiting list, as the allotted spots for Franklin County campers are full at 30 youth.
- Donations for camp scholarships are being accepted to offset our youth's camp registration costs. Contact the Extension office to make donations at 653-9337.

Family Consumer Sciences:

- Family Nutrition Program (FNP) Assistant teaching scheduled classroom programs in local schools.
- Planning is underway for next year's FNP program budget and teaching responsibilities.

FRANKLIN COUNTY
CLERK OF THE CIRCUIT COURT

33 MARKET STREET, SUITE 203
APALACHICOLA, FL 32320

(850) 653-8861
FAX (850) 653-2261

Clerk's Report to the Board 5/1/2018:

1. For action, my office will soon start preparing the letters requiring the constitutional officers, your department heads, and the other agencies you fund to turn their budgets in. Are there any special instructions you wish to be included in the letters?

RESTORE Coordinator Report
May 1, 2018

1- Provide Board with copies of the letters of support issued to the City of Carrabelle for their 3 TRIUMPH applications. The City is requesting a total of \$1.480 in TRIUMPH funds.

2- Inform Board the Island View Park is scheduled for construction completion on June 30. We are tentatively scheduling a public dedication on Friday, July 6. More information will follow at a later date.

3- Inform Board of an issue that does not affect Franklin County yet. Ms. Brownell, EM Director, may explain this as well, but it appears the state DEM is changing how schools get reimbursed for sheltering costs. Previously, schools who operated shelters would seek reimbursement from FEMA. DEM is now saying the county commission will reimburse schools for the cost of sheltering and then it would be the county commission who would have to seek reimbursement from FEMA. Franklin County schools do not operate as shelters so this issue does not apply to us, but it is going to be a big issue in other counties.

4- Inform the Board that I have re-submitted a new cost estimate to FEMA for the repairs to Alligator Drive to its pre-Hurricane Hermine condition. I also participated in another FEMA site visit to Alligator Point on April 24. The PW that the county signed in March for some \$3.2M is still under review by FEMA Atlanta. However, since the submission of the new cost estimate last week FEMA staff in Atlanta say they are working on the PW so I have not yet contacted our federal delegation. If I do not have a positive response from FEMA by May 7, then I will contact our federal delegation as directed by the Board at the last meeting. Attached is the revised cost estimate, and it is less than a \$100K different from the one submitted 20 months ago. FEMA is still reviewing the HMGP costs associated with installing sheetpile to provide additional protection for the road. At this time I am still expecting approximately \$3.2M of FEMA funds for the repair of the road.

5- Inform Board that Dewberry is working on the design of Alligator Drive because we have a separate PW (PW461) from FEMA specifically for the design costs. This PW has been approved and funds obligated by FEMA. As with all work on Alligator Point, we are using the Bald Point Trust fund to pay the invoice and then we reimburse the Trust Fund when we receive the FEMA funds. PW 461 is for some \$344K for design costs. Fortunately this PW is included in the Governor's waiver so the county's FEMA match is only 6.25% and not the usual 12.5%.

5- Provide Board with completion documents for the acquisition of the Capital City property on Alligator Point. To my knowledge, the project is complete.

6- Inform Board that the Apalachicola National Estuarine Research Reserve (ANERR) is extending the existing breakwater/living shoreline that was initially started to protect

Sawyer St on St. George Island about 15 years ago. The work does not require Board action as it is out in the water, but the action will help protect the last remaining section of Sawyer St currently is exposed to wave action from the Bay. I inspected the site last week with ANERR staff. At the request of Commissioner Jones, ANERR may also install a breakwater/living shoreline at the end of Howell St on the Island, where erosion is eating into the street end.

7- Inform the Board that Florida's Great Northwest (FGN) is making an application to TRIUMPH for funds that would be available to all 8 impacted counties for a Regional Investment Stimulation and Enhancement (RISE) fund. The RISE fund would be used for ad valorem tax rebates to companies creating jobs in the any one of the 8 counties. However, the rebate is only for the non-abatable property taxes (school taxes), as the county's share would be waived. The concept is that by waiving property taxes for companies expanding in the county, there would be other property value increases that would make up for the specific parcel that receives the exemption. The program is structured so that the company would pay the school ad valorem taxes upfront and then would seek reimbursement from TRIUMPH.

FGN has requested letters of support from all 8 counties. I have called Wakulla and Gulf counties to see if they were going to write letters of support and they are still reviewing the RISE proposal. Since I will not be at the next Board meeting on May 15 meeting, I have attached a draft letter of support written by Santa Rosa County, and I have attached a one page summary of the RISE program. If the Board members, in their discussions with other neighboring county commissioners, decide Franklin County should write a letter of support then Michael Moron could use the draft letter as a guide. Franklin County is covered by the RISE application whether we write a letter of support or not.

Addendum to RESTORE Coordinator Report
May 1, 2018

1- Board action to utilize Hi-Lite contractor as the contractor for the re-marking of the runways at the Apalachicola Regional Airport. FDOT has just executed the first of 2 JPA for remarking the runways. Airfield marking is a specialized field and the contractors who want to do this work have to comply with FDOT and FAA requirements. FDOT sets the criteria for the work to be done, and the fees to be charged, and contractors have to meet these state standards as they apply to all airports in Florida. Hi-Lite is on the state bid list for remarking runways, and Jason Puckett and John Collins, AVCON, both recommend the Board accept Hi-Lite as the contractor to remark the runways at the airport. If FDOT will allow it, runway 18-36 will also be remarked if there are enough funds. This project is 100% funded with FDOT funds. Board action.

TRIUMPH Board
Florida TRIUMPH Gulf Coast, Inc.
P.O Box 12007
Tallahassee, FL 32317

Dear Members of the TRIUMPH Board:

The Franklin County Board of County Commissioners is pleased to endorse the City of Carrabelle proposal- Carrabelle Septic Tank Abatement - which is being submitted to TRIUMPH Gulf Coast for \$590,000 in TRIUMPH funds. We strongly support this application. The City of Carrabelle project has environmental and economic benefits that will be attained through the implementation of this project.

Funding for septic tank abatement has been awarded by the NFWFMD, but funding for construction of water service continues to be an unmet need for the City of Carrabelle. Clean, reliable water supply in rural areas is a crucial part in successful growth of any community. Reliable water service that does not pose a health hazard will make the Lighthouse Estates Subdivision a viable option for construction of affordable housing as Carrabelle's workforce grows.

Development of new homes in the area will support future job growth in construction, real estate, and other related industries such as education, medical, law enforcement, and hospitality as well as provide the community with fire protection. Funding for clean, reliable water service at a lower cost to the City will provide a platform for economic recovery of the community in general that will be passed on to the users, ultimately increasing private sector spending.

We support the TRIUMPH Board awarding funds for this project.

Sincerely,

Joseph A. Parrish, Chairman
Franklin County
Board of County Commissioners

TRIUMPH Board
Florida TRIUMPH Gulf Coast, Inc.
P.O Box 12007
Tallahassee, FL 32317

April 17, 2018

Dear Members of the TRIUMPH Board:

The Franklin County Board of County Commissioners is pleased to endorse the City of Carrabelle proposal- Northwest Commercial Revitalization Ave B - which is being submitted to TRIUMPH Gulf Coast for \$860,000 in TRIUMPH funds. We strongly support this application. The City of Carrabelle project has several partners providing matching funds, and there will be economic benefits to the City through the implementation of this project.

With resolution of the issues with the storm water drainage system in the northwestern portion of Carrabelle's downtown, resurfacing roadways to include curb and gutter, and creating pedestrian access, all in the project location; the area will be a viable option for business owners looking for an affordable location to open, relocate, or expand their existing operation. Private sector investment in this blighted area within the City of Carrabelle's CRA District will result in a significant increase in Tax Increment Financing (TIF) funding for the City to invest in other areas with the CRA, thus having a significant economic impact in all of Carrabelle's Commercial District. The development of new and diversified businesses within close proximity to US Highway 98 in northwestern Carrabelle will support future job growth opportunities.

These improvements will result in a high return-on-investment by allowing infrastructure improvements with a lower cost to the City that is passed on to businesses, ultimately resulting in increased private sector spending.

We support the TRIUMPH Board awarding funds for this project.

Sincerely,

Joseph A. Parrish, Chairman
Franklin County
Board of County Commissioners

April 17, 2018

Dear Members of the TRIUMPH Board:

The Franklin County Board of County Commissioners is pleased to endorse the City of Carrabelle proposal- Carrabelle Airport Improvements - which is being submitted to TRIUMPH Gulf Coast for \$30,000 in TRIUMPH funds. We strongly support this application.

Clearing land around the runway will assure continued licensing of the airport and eligibility for future FDOT project funding. Tree removal will allow for future expansion of the airport and upgrading of its services by providing space for an airport apron and additional hangars, thus enhancing the economic viability of the Carrabelle Airport. This project will contribute to high-wage aerospace job diversification in Franklin County and the nearby community. Additional hangar space with the new tenants it brings will assist with bringing new businesses and employment opportunities to the area. Related industries such as food service, lodging, and tourism will benefit from increased airport services and contribute to overall local economic development.

We support the TRIUMPH Board awarding funds for this project.

Sincerely,

A handwritten signature in cursive script, appearing to read "Joseph A. Parrish".

Ms. Tara Scoby
P.A. Public Assistance Specialist
FEMA Region IV

April 26, 2018

Dear Ms. Scoby:

Please find attached the county's estimated costs for repairing the 1100 feet of Alligator Drive damaged by Hurricane Hermine back to pre-storm conditions.

Please utilize these numbers in the CEF form in order to create FEMA's estimated project total for PW 228.

I would like to offer an explanation for the confusion over the previous cost estimate. As you know, in the FEMA system there is a cost estimate for this road that appears to have been created in Sept, 2015. Since Hermine occurred in 2016 it would appear that the county had a cost estimate created before the storm. When you asked me about that cost estimate, I made the assumption that you were looking at a cost estimate we had generated for an HMGP project that was never funded. We had created a cost estimate for that road but it would have been even earlier, probably 2014. I now believe the 2015 date that appears in the CEF narrative was nothing but a typo. After conferring with the engineering firm that created the cost estimate, I believe the cost estimate with the 2015 date was really created in 2016 to reflect the damage done by Hermine.

But to alleviate any confusion, we have now created a new cost estimate and put it on county letterhead. We appreciate your assistance in working on this project. If you have any additional questions, please feel free to contact me by email, alanp@fairpoint.net, or on my cell phone 850-653-5727.

Please be advised that I will be out of the country from May 9 through May 30, and will not have access to my IPAD or emails. In the event you need additional information during that time, please contact Mark Curenton, County Planner, at markc@franklinflorida.com. He has access to all my files. I have copied him and the county engineering contact on this email as well.

Sincerely,

Alan C. Pierce, RESTORE Coordinator

Mr. Jeremy O'Dell
Project Manager, Mitigation Bureau
Florida Division of Emergency Management
2555 Shumard Oak Boulevard
Tallahassee, Florida 32399

RE: Project Number: HMGP-4280-3-F
Project Name: HMGP Alligator Point

Dear Mr. O'Dell,

Franklin County is pleased to report that the above-referenced project has been completed and ready for Final Inspection by FDEM. The work was performed in accordance with the approved scope of work and the Sub-Grantee Agreement. All relevant codes and standards are satisfied.

The County has purchased all the property listed in the Scope of Work and has provided all the required deeds previously. The County, using in-kind labor and equipment, has removed rocks, asphalt, and other storm debris on the property. The County, using in-kind labor and equipment, has graded the existing topography to get as close to a natural beach profile. The County is providing the proof of the in-kind labor and equipment by supplying the time sheets and equipment records with the close-out documents. As the natural environment continues to improve, the county will continue to seek Florida DEP approval and support to re-establish native plant vegetation on the property.

The HMGP Alligator Point project # HMGP-4280-3-F, on Alligator Point is 100% complete and ready for final inspection and close-out.

RE: Florida's Great Northwest's RISE Fund Triumph Application

Dear Ms. Skelton:

On behalf of the Santa Rosa County Board of County Commissioners, please accept this letter of support for Florida's Great Northwest's RISE Fund Triumph Application.

The Santa Rosa County Economic Development Organization provides business location and site selection assistance; employee recruitment and training assistance; start up advice, training and resources; education and training opportunities for businesses and more. The organization is also a board member of Florida's Great Northwest and is supportive of its efforts to diversify and grow Northwest Florida's economy.

The RISE Fund will help our county provide a more attractive value proposition to companies looking to expand and locate in our community. The county's proximity to Alabama, which often provides stronger state support than Florida, makes it even more difficult for our county to compete. The RISE Fund would help increase our ability to retain and recruit competitive projects to Santa Rosa.

Santa Rosa County proudly supports Florida's Great Northwest and its efforts to develop a tool that will help our county and region create higher-paying jobs for our citizens, grow our targeted industries, and increase capital investment into our community. Please do not hesitate to contact any of us if you have any questions about our support.

Sincerely,

Santa Rosa Board of County Commissioners

FLORIDA'S Great Northwest

Regional Investment Stimulation and Enhancement RISE Fund

Overview

Florida's Great Northwest is seeking \$15 million in Triumph funds to help keep existing companies looking to expand and to attract new businesses to the region. When a county/city deems a company's location/expansion in the area is worthy of an economic development ad valorem tax exemption (EDATE) or rebate and meets the required criteria, the RISE Funds could be accessed to cover the costs of the non-abatable property taxes. In essence, this would allow the county/city to offer the company the net equivalent of up to 100% property tax abatement for up to 10 years. While most communities offer an exemption or rebate for a percentage of the local property taxes that are abatable for up to 10 years, very few offer a program like the RISE Fund. It will significantly improve the region's competitiveness in helping to grow Northwest Florida's targeted industries, provide higher-paying jobs for its citizens, increase household incomes and improve the economy throughout the region.

About Florida's Great Northwest

Florida's Great Northwest is the regional economic development organization for the Florida Panhandle. The organization is an investor-supported 501(c)(6) nonprofit corporation created to advocate, collaborate and promote Northwest Florida for economic growth and diversification.

RISE Fund Eligibility

Companies that locate or expand in one of the eight disproportionately affected counties (Escambia, Santa Rosa, Okaloosa, Walton, Bay, Gulf, Franklin, and Wakulla), where the county/city offers an EDATE/rebate, are eligible to apply for RISE Funds for reimbursement of non-abatable property taxes that were paid up front.

RISE Fund Application/Distribution Process

The funds will be held in an escrow account under the control of Triumph Gulf Coast, Inc.

- 1) Once a county/city has an eligible competitive project and it has approved an EDATE/rebate of the county/city's portion of ad valorem taxes, the local economic development organization will complete the RISE Fund application.
- 2) If at the request of Triumph Gulf Coast, Inc., Florida's Great Northwest will serve as an administrator for the program.
- 3) The RISE Fund application and copies of the county's/city's EDATE/rebate forms will be provided to Florida's Great Northwest for review. It will indicate support, check availability of RISE Funds, begin application tracking, and submit documentation to Triumph.
- 4) If Triumph approves the application and the company chooses to locate/expand in one of the eight disproportionately affected counties, then Triumph will enter into a contract with the company and will earmark RISE Funds for the company based upon contract terms. Florida's Great Northwest will maintain records and documentation.
- 5) Each year, the company will pay all non-abatable property taxes upfront.
- 6) Each year, the company will also be required to submit an evaluation form to serve as proof that jobs were created, and capital investment was expended. The county will audit documentation. The documentation will then be sent to Florida's Great Northwest for review, tracking, record keeping and informing Triumph of reimbursement.
