Clerk's Report to the Board 11-6-18:

1-) I have 7 resolutions for adoption on unanticipated revenue as part of the end-of-the-year bookkeeping that involve funds that weren't included in your initial budget last year because we didn't know at the time they would be received. All the funds were spent. Approval is needed to comply with Florida Statutes 129 to incorporate these funds into your budget. **The 1st resolution** deals with \$28,957 received from the Florida Dept. of Transportation for payment of expenses related to the Local Area Program Bayshore Drive Sidewalk Project. The money was put in account 001.20.572.6311, General Fund -Infrastructure – Bayshore Drive Sidewalk. **The 2nd resolution** deals with \$16,115 received from the Florida Dept. of State for payment of expenses relative to the Armory Historic Preservation Project. We put the money into account 001.20.511.6203, General Fund – County Commission - Buildings. **The 3rd resolution** deals with \$237,240 received from the Capital Area Community Action Agency for the purchase of 24 travel trailers from the Eastpoint Wildfire. We put the money into account 001.20.511.6200, General Fund – Buildings, Structures. **The 4th resolution** deals with \$141,950 received from the Florida Dept. of Environmental Protection for the payment of expenses relative to the restoration of Island View Park project. We put the money into account 001.20.572.4602, General Fund – County Commission – Parks – Island View. **The 5th resolution** deals with \$30,000 received from the Florida Division of Emergency Management for the payment of expenses relative to repairs needed to the Ochlockonee Bay Boat Ramp and Indian Creek Boat Ramp after Hurricane Hermine. ACTION NEEDED: MOTION TO APPROVE THE RESOLUTIONS ON UNANTICIPATED REVENUES

2) **For action:** the Finance Department needs the following budget amendments and resolutions approved to amend the last year's budget. The resolutions incorporate unanticipated revenues into your last year's budget. These revenues were unanticipated and spent during the past fiscal year – the revenues were not included in the original budget because it was not known that the revenue would be received when the budget was originally adopted. Approval is needed to comply with Florida Statute 129. The budget amendments move budgeted values from one line item to another.

Line Item Budget Amendment Requests:

1. The budget amendment below is needed to move line items within the capital outlay fund budget to cover the initial startup and equipment purchase costs of the assumption of the landfill transfer station on October 1, 2017. The startup costs included repairs and modifications to the existing concrete pit, a new compactor, compactor bins and a small building. The assumption of the transfer station also required one additional position within the solid waste department.

DECREASE 301.20.511.6300	Capital Outlay – Infrastructure	\$ 154,500.00
--------------------------	---------------------------------	---------------

INCREASE 301.20.511.4600	Capital Outlay – Repair & Maintenance	\$ 30,073.00
INCREASE 301.20.511.6200	Capital Outlay – Buildings	\$ 4,773.00
INCREASE 301.20.511.6401	Capital Outlay – Machinery & Equipment	\$ 119,654.00
DECREASE 001.20.581.9100	County Comm. – Transfer to Capital Outlay	\$ 38,197.00
INCREASE 001.40.534.1200	Solid Waste Department – Regular Salaries	\$ 26,627.00
INCREASE 001.40.534.2100	Solid Waste Department – FICA Taxes	\$ 2,037.00
INCREASE 001.40.534.2200	Solid Waste Department – Retirement	\$ 2,109.00
INCREASE 001.40.534.2300	Solid Waste Department – Insurance	\$ 7,424.00

-
- **ACTION NEEDED: MOTION TO APPROVE THE LINE ITEM BUDGET AMENDMENT**

2. The budget amendment below is needed to move line items within the capital outlay fund budget to cover the obligated county contribution for the Island View Park grant project. The funds were expended for habitat restoration within the park boundaries.

DECREASE 301.20.511.6300	Capital Outlay – Infrastructure	\$ 22,185.00
INCREASE 301.20.511.4600	Capital Outlay – Repair & Maintenance	\$ 22,185.00

RESTORE Coordinator Report
November 6, 2018

1- Board action to approve sending out the letter of interest to property owners on Alligator Point to determine their interest in the voluntary acquisition of their property using funds provided the state's Hazard Mitigation Program. This letter is not a commitment on either side, but the initial notification of the program and a solicitation of interest. The erosion caused by Hurricane Michael was significant in some areas and these letters will go out to those properties that are at greatest risk. The proposed letter is attached.

2- Inform the Board that I visited Alligator Point on Thursday, Nov. 1, with Mr. Tony Ettore and Ms. Jeanne Devlin, who are the county's emergency management consultants. We drove the entire Point and I explained the predicament the county is in regarding the maintenance of a road that borders on the open Gulf of Mexico. To provide the Board with the scope of the problem, consider these figures. Hurricane Hermine destroyed 1000 feet of road. After 2 years FEMA has obligated \$3M to protect that 1000 feet. Hurricane Michael has extended the damage to the east by 500 feet, and to the west by some 300 feet. In addition some 700 feet of Chip Morrison has been destroyed. So there is a total, in rough numbers, of another 1500 feet of road now exposed to the open Gulf of Mexico. If I use the cost per foot of repair work created by Hermine, it comes to \$3000 per linear foot of roadway. If I multiply the new 1500 feet of damage by \$3K, the possible cost of repairing the new damage could be \$4.5M. So, the possible total cost of repairing the entire currently damaged road (Hermine and Michael) on Alligator Point could be \$7.5M. This cost could change because it is possible that Chip Morrison would not be rebuilt, and instead of a loop road Chip Morrison would only have access from the west, but for the purpose of this discussion I am assuming Chip Morrison will be rebuilt. The proposed design for damage caused by Michael would be the same as the design for Hermine. Sheetpile driven the entire length of the damaged area on the water side, but our coastal engineers have suggested we amend the design to put sheetpile on the north side as well so that the next time a storm comes through at least the road will have structures on either side keeping the road in place. The known flaw in this design is that it does nothing to protect the road from damage to the road further east and west, which is where the erosion is headed. The risk of future damage is great. The location of the damage caused by Michael was exactly in the places we expected damage and there is no reason to think that future damage will not continue to occur as erosion moves east and west of the central damaged area. The situation on Alligator Point is only going to get worse, and the limited county resources can not stop it.

The Bald Point Trust Fund barely has enough funds in it to cover the cost of the Hermine damage, so the Board should operate on the assumption that there is no local funding source for the new damage. Unless the Governor grants another waiver, and the county consultant's have asked for a waiver, the county does not have the 12.5% of \$4.5M estimated cost to repair Michael's damage. The estimated local match of \$4.5M is \$562,500.

The county road department budget can not absorb this cost, and the county ad valorem assessment did not include this cost. If the county does not get a waiver, the

county will not have the financial resources to repair the road using existing revenue sources. The most logical new funding source would be a road maintenance assessment on those property owners that need to use the road. And, the Board needs to realize this one time cost is not the only extra-ordinary cost of maintaining Alligator Drive. There is at least another 1000 feet of road that was not damaged by this storm, but that could be damaged by another storm. And if the road is damaged by a storm that is not on the scale of a federal disaster then all of the repair costs are going to be borne by the county. The county needs to consider a permanent funding source for the extra-ordinary road costs associated with maintaining Alligator Drive.

Such an assessment would only be used for road maintenance, and if the public wants better protection for the road, then another assessment for beach renourishment needs to be considered. The situation on Alligator Point has gone from bad to worse, and considering how long it has taken FEMA to obligate funds for Hermine it is unknown how long it will take to receive additional funds for a permanent repair. There are some options for funding temporary repairs that Mr. Ettore and Ms. Devlin discussed with me and I need to get with finance office, and county engineers to talk about the feasibility.

The main problem with any temporary repairs is that Michael has dropped the road about 4 feet lower and moved the Gulf 10 feet closer. After Hurricane Hermine the 1000 feet of damaged section of the road was still about 7 feet of above sea level. After Hurricane Michael, some of that road has dropped down to about 3 feet of above sea level. At 3 feet the existing temporary road will be damaged by any wind event, including the cold front that came through this weekend. It is certainly possible that the Point will continue to be cut off periodically because the road is so exposed.

In conclusion, the Board needs find the necessary funding source to keep the road maintained, or the road needs to be abandoned.

RE: Parcel # ##-###-###-####-#####-####

Dear Property Owner:

Franklin County, is seeking funding from the Federal Emergency Management Agency (FEMA), with assistance from the Florida Division of Emergency Management (FDEM) to provide financial assistance to the residents of Alligator Point through the Hazard Mitigation Grant Program (HMGP) under Section 404 of the Stafford Act. HMGP funds will be used to help reduce or eliminate the risk of loss of life and property from future disasters. Specifically in Alligator Point, the county intends to purchase and demolish existing structures and utilize the remaining underlying land as "open space" or to relocate the road access on Alligator Point. The goal of the program is to remove the homeowner from the persistent hazards that currently influence the area. Some key points of the HMGP Acquisition Buy-Out Program:

- Franklin County will not use its eminent domain authority to acquire property should negotiations fail.
- Franklin County will advise property owners, and obtain a statement from them, that their participation in the buy-out is completely voluntary.
- The value of the property will be fair-market value, as determined by a licensed appraiser.
- In some cases, fair-market value can be appraised under the condition of pre-disaster value, if damages have occurred negatively impacting the current value of the home.
- Franklin County, FEMA and FDEM will restrict the title to the acquired property to allow only compatible open space use without future construction or for road relocation.

Eligibility is open to those who have experienced repeated losses in recent years or in the immediate proximity of the flood/surge prone areas of Alligator Point, provided they are a National of the United States or qualified alien. Again, participation in this program is entirely voluntary – and has been established for the benefit of the homeowner. If you have any questions or are interested in having your property acquired under this program, please contact within 30 days:

County Coordinator's Report
BOCC Regular Meeting
November 6, 2018

1. The County will be installing bear resistant kits in Carrabelle on Saturday, November 17th from 8:30 a.m. until 12:30 p.m. This event was originally scheduled for Saturday, October 13th but was postponed due to Hurricane Michael. Commissioner Massey was able to secure the pavilion in the Carrabelle Firehouse parking lot for this event once again and will be joining the Parks and Recreation staff and Mrs. Whitley Barfield (Administrative Office) to assist residents with the installation of the kits.
2. Mrs. Lisa Lance, Director of Libraries, informed me that due to a last-minute technical delay she received the 2018-19 State Aid to Libraries Grant Agreement last week instead of the usual August date. Since it was late, she asked for the Chairman and Clerk's signatures as soon as possible, to allow adequate time for submittal of the grant. **Board action** to ratify the Chairman's signature on the 2018-19 State Aid to Libraries Grant Agreement.
3. At your October 29th special meeting the Board authorized DEO's CDBG grant modification #3 to reinstate the agreement as though it had not expired. Unfortunately, that specific language was not in the signed version of the agreement. DEO has added that language and requested that it was signed as soon as possible to continue with the process of making the funds available for purchase of the permanent homes for those affected by the Eastpoint fire event. **Board action** to ratify the Chairman's signature on the amended version of modification #3.
