## NOTICE OF SPECIAL MEETING OF THE FRANKLIN COUNTY BOARD OF COUNTY COMMISSIONERS

Notice is given that on Friday, March 1, 2019, beginning at 9:00 a.m. (ET), at 34 Forbes Street, Apalachicola, Florida, the Franklin County Board of County Commissioners shall hold a special meeting to address the following matters:

1. Discuss and possibly take action on moving next week's County Commission regular meeting date from Tuesday, March 5, 2019 to Wednesday, March 6, 2019 at 9:00 a.m.
2. Discuss and possibly take action on RESTORE report items that will be presented by Mr. Alan Pierce. Mr. Pierce will not have a RESTORE report at next week's Board of County Commission's regular meeting.
3. Discuss and possibly take action on approving funding for the Franklin County Seahawks boys basketball team as they travel to participate in the State Championship tournament that will be held on Monday, March 4, 2019 and Tuesday, March 5, 2019, in Lakeland, Florida.
4. Discuss and possibly take action on declaring an emergency to override the County's bid policy to replace the current HVAC system for offices located in the Courthouse Annex building.
5. Discuss and possibly take action on a temporary option for Building Official services in the County.
6. Discuss and possibly take action on a request to the FDOT Secretary concerning the start date of FDOT financial responsibility for the monitoring and removal of debris from Hurricane Michael. The State issued its memorandum of financial responsibility on 10/14/18. Franklin County sent in a response on both 10/15/18 and again on 10/18/18. FDOT has notified Franklin County EOC that it will accept financial responsibility effective 10/18/18. Franklin County activated its contractors immediately after Hurricane Michael and incurred \$126,978.71 in storm related expenses.

The public is invited to attend the public meeting and provide public comment.

The meeting room is handicap accessible; however, those persons who may require special assistance to attend the public meeting must make arrangements in advance by calling Deputy Clerk Lori Hines at 850-653-8861, x100 at least one business day in advance of the meeting.

Any person who may desire to challenge the outcome of the meeting is responsible for recording a verbatim transcript of the meeting.

RESTORE Coordinator Report  
March 1, 2019 (Special Meeting)

1- TRIUMPH update- Inform the Board that the TRIUMPH Board did approve at their Feb. 25 meeting an application form and process for Franklin County to seek ad valorem tax relief because of Hurricane Michael. A copy of the application form is attached to my report. The important facts are: only the county can be the applicant- but we can apply on behalf of the school board and the two cities; the county would receive the funds and then distribute the appropriate amounts to the school board and the cities; TRIUMPH is requesting the applications be turned in by March 20 as they want to provide their funds before July 1. All the taxing authorities need to be aware that TRIUMPH will only provide up to 50% of the loss of tax revenue, as the TRIUMPH Board has publically stated they expect the Legislature to provide the other 50%. Also, because the TRIUMPH Board will be releasing funds based upon estimated tax valuations, when the certified tax roll is released on July 1 by the Property Appraiser there might be some adjustment in TRIUMPH funds. If the July 1 certified tax roll shows a smaller loss than what was estimated in the March application then appropriate funds might have to be returned to TRIUMPH because TRIUMPH is only providing up to 50% of the loss. The county should probably hold on to some of the TRIUMPH funds until the certified tax roll is released because it will be easier for the county to refund the money that has not be distributed than the county seeking a claw-back from the cities and the school board. The amount of funds the county should withhold can be discussed at a later meeting as the funds probably will not be received from TRIUMPH until some time in April/May.

Mr. Shuler and I are meeting with the cities and school board later this morning to go over the application process with them.

Since the next regular Board meeting is March 19, a day before the March 20 TRIUMPH deadline, does the Board today want to authorize the application for TRIUMPH funds based upon the tax base numbers provided by the Property Appraiser? Board discussion.

2- Island View update- Inform the Board that I had a teleconference with Wood Partners regarding the possibility that they provide a quantitative analysis of the damage caused by Hurricane Michael. They were the general contractors who built the structure so they have a better idea of how it all goes together. I am waiting on a quote from them as the maximum price for this work as authorized by FDEP is \$20K.

3- Remind Board that responses for RESTORE Consultant have been advertised and are due in the Clerk's Office by 4 PM, Monday, March 4. The ad did say the RFQs would be opened on March 5, so I will defer to the County Attorney on what action, if any, is necessary to allow the Board to open the responses on March 6.

I will not be at the March 6 meeting, so the Board's action on March 6 will be to turn the responses over to the ranking committee for review and a recommendation to the Board. The ranking committee will be comprised of me, Whitney Barfield, and Mark Curenton, unless Michael Moron wants to serve in some capacity.

4- Inform the Board that Commissioner Jones and I attended the repeat legislative delegation meeting on Wednesday evening, Feb. 27. Commissioner Jones reiterated the issues previously approved by the Board, being the need for a new EOC and funding to complete the fire system at the Armory. I spoke about the need for the Legislature to fund the 50% of the Hurricane Michael tax loss that TRIUMPH is not funding, and that the county is putting in a \$20M request through FDEP for dune restoration. I also spoke of the hardship the county will be under if the Governor does not propose a waiver to the local FEMA match of 12.5%. In the case of Franklin County, if in fact we end up with \$8M worth of FEMA authorized repairs, then 12.5% of \$8M is \$1M, and since there is no other funding source that \$1M would come out of the county's reserves. To add to the Board's concerns, the county's reserves are currently around \$500,000 so there could easily be a cash crunch if the county has to pay out a full local match. On the good side, of the \$8M worth of damage, we projected \$4M going to rebuild Alligator Drive in its current location. We, of course, do not anticipate rebuilding the road in its current location so it is possible the county would not have to match that \$4M project, but I had to list it in the event the road is not relocated.

Senator Montford talked about the hardship all of north Florida is under because of the hurricane and he did think the legislature would be responding. Related to this, the county finance office prepared a list of hurricane damages and has sent that to Senator Montford. A copy of the letter from Ms. Johnson to the Senator is in the Board packet.

5- Alligator Point update- Clay Kennedy and I attended another FEMA site visit on Alligator Point on Feb. 21 to do a write-up of the 150 feet at the west end of Alligator Drive that was damaged. This is the section down by the fire station. We did have a number of residents stop and thank the county for being there, and that they are happy to be in Franklin County. I did sign the site report to repair that section of Alligator Drive after consultation with Clay Kennedy. Ms. Sarah Kelty, FCMC, was there and she says FCMC has some 7 property owners who have signed a willingness to sell form, even though not all of these 7 are in the new right of way. After consulting with Commissioner Boldt I advised Ms. Kelty to get started on acquiring those 7 lots. Of the 16 lots critical to the relocation of the road, FCMC has not had responses from all of them, but Commissioner Boldt and I agree that if the acquisition process starts it may cause others to come around. And, at this point, any lot acquired on Alligator Point is one less property owner to deal with during the next hurricane.

Then, yesterday, Feb. 28, Pam Brownell and her staff, and I, met with FEMA staff to go over the status of the county's projects. Pam may want to report her projects later, but I am going to report on Alligator Point now. Yesterday's meeting did provide better direction on what the county is going to be allowed to do under Cat B- emergency protective action. The county is going to submit a project for widening the current temporary road so that it becomes two lanes, and put an asphalt cap on the road to minimize erosion and for dust control. The county will also seek a time extension so that we can continue to submit reimbursement on road maintenance for the next 18 months. FEMA will expedite the review and reimbursement of the expenses the county has had so far on Alligator Drive.

FEMA staff will have an internal discussion about whether to support the county applying for an emergency sand berm, and they will let us know.

**Triumph Gulf Coast, Inc.**  
**Hurricane Michael Disaster Recovery Fund**

On February 8, 2019, the Triumph Gulf Coast, Inc., board voted to create a Hurricane Michael Disaster Recovery Fund of \$15,000,000.00 to address the economic recovery of, and the ad valorem tax losses of, the four Florida Counties most significantly impacted by Hurricane Michael: Bay, Gulf, Franklin, and Wakulla.

The Board of County Commissioners (“BOCC”) in each of the four declared major disaster areas is eligible to apply for an award from this Program for up to 50% of the County Tax Collector’s estimated ad valorem tax loss for Fiscal Year 2019. Each BOCC may apply on behalf of the County, School Board and/or incorporated cities within their county. The estimated loss shall be based on the available data at the time of the application.

The Board of Triumph Gulf Coast, Inc. will provide discretionary priority to consideration of Applications for projects and programs that:

- Aid in the recovery from Hurricane Michael in the following counties: Bay, Gulf, Franklin or Wakulla such that said Counties can engage in other projects and programs that diversify and enhance the economy of the region.
- Provide grants in those counties impacted by Hurricane Michael (Bay, Gulf, Franklin & Wakulla) to mitigate up to fifty percent (50%) of the anticipated loss in ad valorem tax revenues for Fiscal Year 2019 as a result of reduced taxable value of assessed damaged/destroyed property in the respective counties.

**This Program is limited to funding for Hurricane Recovery in the named counties and is not a part of the regular Triumph Gulf Coast, Inc. application process. The application review process for Program applications may be expedited.**

**Pre-applications and term sheets will not be required for this program. Requests for funding other than ad valorem tax loss replacement may require additional review and information as requested by staff.**

- Please check this box if your project, program, or grant application requests expedited review pursuant to the Triumph Gulf Coast, Inc.’s Hurricane Michael Major Disaster Recovery Program.*

## **Triumph Gulf Coast, Inc. Trust Fund** **Application for Funds**

Proposal Instructions: The Triumph Gulf Coast, Inc. Trust Fund Grant Application (this document) must be completed by the entity applying for the grant and signed, as applicable, by either an individual authorized to bind the entity applying for funds, a chief elected official, the administrator for the governmental entity or their designee. Please read the Application carefully as some questions may require a separate narrative to be completed. In addition, please complete all Addendums that may be applicable to the proposed project or program.

Triumph Gulf Coast, Inc. will make awards from available funds to projects or programs that meet the priorities for economic recovery, diversification, and enhancement of the disproportionately affected counties. Triumph Gulf Coast, Inc. may make awards for:

- Ad valorem tax rate reduction within disproportionately affected counties;
- Local match requirements of s. 288.0655 for projects in the disproportionately affected counties;
- Public infrastructure projects for construction, expansion, or maintenance which are shown to enhance economic recovery, diversification, and enhancement of the disproportionately affected counties;
- Grants to local governments in the disproportionately affected counties to establish and maintain equipment and trained personnel for local action plans of response to respond to disasters, such as plans created for the Coastal Impacts Assistance Program;
- Grants to support programs that prepare students for future occupations and careers at K-20 institutions that have campuses in the disproportionately affected counties. Eligible programs include those that increase students' technology skills and knowledge; encourage industry certifications; provide rigorous, alternative pathways for students to meet high school graduation requirements; strengthen career readiness initiatives; fund high-demand programs of emphasis at the bachelor's and master's level designated by the Board of Governors; and, similar to or the same as talent retention programs created by the Chancellor of the State University System and the Commission of Education; encourage students with interest or aptitude for science, technology, engineering, mathematics, and medical disciplines to pursue postsecondary education at a state university or a Florida College System institution within the disproportionately affected counties;
- Grants to support programs that provide participants in the disproportionately affected counties with transferable, sustainable workforce skills that are not confined to a single employer; and
- Grants to the tourism entity created under s. 288.1226 for the purpose of advertising and promoting tourism and Fresh From Florida, and grants to promote workforce and infrastructure, on behalf of all of the disproportionately affected counties.

Pursuant to Florida Law, Triumph Gulf Coast, Inc. will provide priority consideration to Applications for projects or programs that:

- Generate maximum estimated economic benefits, based on tools and models not generally employed by economic input-output analyses, including cost-benefit, return-on-investment, or dynamic scoring techniques to determine how the long-term economic growth potential of the disproportionately affected counties may be enhanced by the investment.
- Increase household income in the disproportionately affected counties above national average household income.
- Leverage or further enhance key regional assets, including educational institutions, research facilities, and military bases.
- Partner with local governments to provide funds, infrastructure, land, or other assistance for the project.
- Benefit the environment, in addition to the economy.
- Provide outcome measures.
- Partner with K-20 educational institutions or school districts located within the disproportionately affected counties as of January 1, 2017.
- Are recommended by the board of county commissioners of the county in which the project or program will be located.
- Partner with convention and visitor bureaus, tourist development councils, or chambers of commerce located within the disproportionately affected counties.

Additionally, the Board of Triumph Gulf Coast, Inc. may provide discretionary priority to consideration of Applications for projects and programs that:

- Are considered transformational for the future of the Northwest Florida region.
- May be consummated quickly and efficiently.
- Promote net-new jobs in the private sector with an income above regional average household income.
- Align with Northwest Florida FORWARD, the regional strategic initiative for Northwest Florida economic transformation.
- Create net-new jobs in targeted industries to include: aerospace and defense, financial services/shared services, water transportation, artificial intelligence, cybersecurity, information technology, manufacturing, and robotics.
- Promote industry cluster impact for unique targeted industries.
- Create net-new jobs with wages above national average wage (e.g., similar to EFI QTI program, measured on graduated scale).
- Are located in Rural Area of Opportunity as defined by the State of Florida (DEO).
- Provide a wider regional impact versus solely local impact.
- Align with other similar programs across the regions for greater regional impact, and not be duplicative of other existing projects or programs.
- Enhance research and innovative technologies in the region.
- Enhance a targeted industry cluster or create a Center of Excellence unique to Northwest Florida.

- Create a unique asset in the region that can be leveraged for regional growth of targeted industries.
- Demonstrate long-term financial sustainability following Triumph Gulf Coast, Inc. funding.
- Leverage funding from other government and private entity sources.
- Provide local investment and spending.
- Are supported by more than one governmental entity and/or private sector companies, in particular proposed projects or programs supported by more than one county in the region.
- Provide clear performance metrics over duration of project or program.
- Include deliverables-based payment system dependent upon achievement of interim performance metrics.
- Provide capacity building support for regional economic growth.
- Are environmentally conscious and business focused.

Applications will be evaluated and scored based on compliance with the statutory requirements of the Triumph Gulf Coast legislation, including but not limited to the priorities identified therein and the geographic region served by the proposed project or program.

**Triumph Gulf Coast, Inc.  
Hurricane Michael Disaster Recovery Fund  
Ad Valorem Relief Application**

The Board of County Commissioners (“BOCC”) in each of the four declared major disaster areas are eligible to apply for an award from this Program for up to 50% of the County Tax Collector’s estimated ad valorem tax loss for Fiscal Year 2019. Each BOCC may apply on behalf of the County, School Board and/or incorporated cities within their county. The estimated loss shall be based on the available data at the time of the application.

**IMPORTANT NOTICE**

**In order to receive funds from the Hurricane Michael Major Disaster Recovery Fund Program for Ad Valorem Assistance, all eligible counties are required to complete this Hurricane Michael Major Disaster Recovery Program Application, which will be reviewed and then considered for award at the discretion of Triumph Gulf Coast Board. Counties should include any requests for funding under the Program for all eligible entities within each county.**

All component entities included in a county application must send a representative to a Division of Emergency Management FEMA Reimbursement Workshop prior to receiving Triumph Gulf Coast Hurricane Michael Major Disaster Recovery Program funds.

**Eligibility**

**The Hurricane Michael Major Disaster Recovery Program is limited to Bay County, Franklin County, Gulf County, and Wakulla County.**

From the choices below, please check the box that describes the purpose of the proposed project or program (check all that apply):

- Grants to the Board of County Commissioners in Bay, Gulf, Franklin, or Wakulla County for projects or programs that aid in the recovery from Hurricane Michael.
- Grants to the Board of County Commissioners in Bay, Gulf, Franklin, or Wakulla County to pay up to fifty percent (50%) of the anticipated loss in ad valorem real estate tax revenue as a result in the reduction of property values based on Hurricane Michael.
- Ad valorem tax rate reduction within disproportionately affected counties;
- Local match requirements of s. 288.0655 for projects in the disproportionately affected counties;
- Public infrastructure projects for construction, expansion, or maintenance which are shown to enhance economic recovery, diversification, and enhancement of the disproportionately affected counties;
- Grants to local governments in the disproportionately affected counties to establish and maintain equipment and trained personnel for local action plans of response to respond to disasters, such as plans created for the Coastal Impacts Assistance Program;
- Grants to support programs that prepare students for future occupations and careers at K-20 institutions that have campuses in the disproportionately affected counties. Eligible programs include those that increase students' technology skills and knowledge; encourage industry certifications; provide rigorous, alternative pathways for students to meet high

school graduation requirements; strengthen career readiness initiatives; fund high-demand programs of emphasis at the bachelor's and master's level designated by the Board of Governors; and, similar to or the same as talent retention programs created by the Chancellor of the State University System and the Commission of Education, encourage students with interest or aptitude for science, technology, engineering, mathematics, and medical disciplines to pursue postsecondary education at a state university or a Florida College System institution within the disproportionately affected counties;

- Grants to support programs that provide participants in the disproportionately affected counties with transferable, sustainable workforce skills that are not confined to a single employer; and
- Grants to the tourism entity created under s. 288.1226 for the purpose of advertising and promoting tourism and Fresh From Florida, and grants to promote workforce and infrastructure, on behalf of all of the disproportionately affected counties.

**Please provide the following information:**

- (i) A summary description of the request, including how the program will promote economic recovery, diversification, or enhancement of the disproportionately affected County, and
- (ii) The County Property Appraiser's estimate of the change in assessed value including three years of data – FY 2017, 2018 and estimated 2019.
- (iii) The millage rate for each applicable taxing entity, along with the revenue per taxing entity and the anticipated Michael-affected revenue per taxing entity for FY 2017, 2018 and 2019.
- (iv) The amount of funds being sought from Triumph Gulf Coast by the County on behalf of each entity;
- (v) Any additional information or attachments to be considered for this proposal.

**Priorities**

1. Please check the box if the proposed project or program will meet any of the following priorities (check all that apply):
  - Aid in recovery from Hurricane Michael in Bay, Gulf, Franklin or Wakulla County.
  - Generate maximum estimated economic benefits, based on tools and models not generally employed by economic input-output analyses, including cost-benefit, return-on-investment, or dynamic scoring techniques to determine how the long- term economic growth potential of the disproportionately affected counties may be enhanced by the investment.

- Increase household income in the disproportionately affected counties above national average household income.
- Leverage or further enhance key regional assets, including educational institutions, research facilities, and military bases.
- Partner with local governments to provide funds, infrastructure, land, or other assistance for the project.
- Benefit the environment, in addition to the economy.
- Provide outcome measures.
- Partner with K-20 educational institutions or school districts located within the disproportionately affected counties as of January 1, 2017.
- Are recommended by the board of county commissioners of the county in which the project or program will be located.
- Partner with convention and visitor bureaus, tourist development councils, or chambers of commerce located within the disproportionately affected counties.

2. Please explain how the proposed project meets the priorities identified above.

---

(If additional space is needed, please attach a Word document with your entire answer.)

3. Please explain how the proposed project or program meets the discretionary priorities identified by the Board.

---

(If additional space is needed, please attach a Word document with your entire answer.)

4. Does the Board of County Commissioners for the applicant County listed above, recommend this project or program to Triumph?

Yes  No

5. Please provide documentation from the Board of County Commissioners indicating their support and/or continued support notwithstanding the impact of Hurricane Michael's landfall on October 10, 2018.

**Approvals and Authority**

Attach evidence that the undersigned has all necessary authority to execute this proposal on behalf of the entity applying for funding. This evidence may take a variety of forms, including but not limited to: a delegation of authority, citation to relevant laws or codes, policy documents, etc. In addition, please attach any support letters from partners.

**Funding and Budget:**

Does the potential award supplement but not supplant existing funding sources? If yes, describe how the potential award supplements existing funding sources.

Yes       No

---

(If additional space is needed, please attach a Word document with your entire answer.)

Applicant understands that the Triumph Gulf Coast, Inc. statute requires that the award contract must include provisions requiring a performance report on the contracted activities, must account for the proper use of funds provided under the contract, and must include provisions for recovery of awards in the event the award was based upon fraudulent information or the awardee is not meeting the performance requirements of the award.

Yes       No

Applicant acknowledges that Applicant and any co-Applicants will make books and records and other financial data available to Triumph Gulf Coast, Inc. as necessary to measure and confirm performance metrics and deliverables.

Yes       No

Applicant acknowledges that Triumph Gulf Coast, Inc. reserves the right to request additional information from Applicant concerning the proposed project or program.

Yes       No

---

February 20, 2019

Honorable Senator Bill Montford  
404 South Monroe Street  
Tallahassee, FL 32399

Dear Senator Montford:

You have requested the following information from Franklin County in regards to the County's restoration efforts after Hurricane Michael on October 10, 2018. The county lies 30 miles from ground-zero and sustained damage from hurricane force winds and storm surge. In addition to coastal erosion, loss and damage of millions of dollars in property for residents, erosion/destruction of county roadways, approximately 204,087 cubic yards of hurricane debris, 82 of the County's 114 insured structures sustained some form of damage from Hurricane Michael in varying degrees of severity with damages estimated at 3 to 4 million dollars.

To restore Franklin County wholly to October 9, 2018, the following items will need to be reimbursed/repaid/restored. The county is requesting reimbursement from all available avenues to accomplish this restoration.

Some of the large restoration/repairs that are/will be submitted to FEMA for assistance are as follows – county responsibility is estimated at 12.5% of eligible costs. A match waiver has been requested and approval of this waiver would be immensely helpful. Expedient processing and release of these funding requests would greatly improve the cash flow for the county as all repairs are currently being funded by reserves.

- Small scale repair tickets to parks, buildings, facilities, signage \$55,524-\$125,000
- Reimbursement of Disaster Response Services \$40,860
- Reimbursement of storm related overtime payroll costs \$142,963
- Restoration of Island View Park \$1,000,000-\$2,000,000
- Restoration/Stabilization of Eastpoint Fishing Pier Park \$55,000
- Restoration of Alligator Drive to condition prior to damage \$4,000,000
- Restoration/stabilization of 1000 feet of waterfront Highway C30 \$250,000

**JOSEPH PARRISH**  
DISTRICT FOUR

**WILLIAM MASSEY**  
DISTRICT FIVE

- Insurance Deductible Weems Memorial Hospital Roof Damage \$150,000
- Insurance Deductible County Courthouse Roof Damage \$50,000-\$100,000

Restoration requested through TRIUMPH Funding:

- Reimbursement of estimated lost Property Tax Proceeds due to storm damage \$277,268

The Board of County Commission has expressed interest in the following hurricane preparedness/mitigation projects to better prepare for future storm events:

- Permanent repair/relocation of Alligator Drive on Alligator Point \$7,000,000 – road is in dire condition, extremely vulnerable coastal location and the sole hurricane evacuation route for residents
- Construction of a new Emergency Operations Center to replace current EOC built in 1978, requested amount \$4,000,000
- Land acquisition and purchase of new tub grinder for Franklin County Landfill – expansion/upgrade is needed to be able to ensure processing and capacity for future storm debris \$1,500,000
- County-wide beachfront dune restoration \$20,000,000

Franklin County appreciates any and all assistance provided by the State of Florida and the Federal Government in the aftermath of such a disaster – without this assistance it would be impossible for the county to move forward, all efforts would instead be focused only on recovery. Franklin County respectfully requests any aid that can be given.

If additional information is needed, please call me at (850) 653-8861 Ext. 103.

Sincerely,

  
Marcia M. Johnson  
Clerk of Courts

## Local Funding Initiative Request

### Fiscal Year 2019-2020

#### 11. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

Restoration of Franklin County to condition prior to Hurricane Michael

b. What activities and services will be provided to meet the intended purpose of these funds?

Restoration of Franklin County to condition prior to Hurricane Michael

c. What direct services will be provided to citizens by the appropriation project?

Restoration of Franklin County to condition prior to Hurricane Michael

d. Who is the target population served by this project? How many individuals are expected to be served?

Approximately 12,009 residents and visitors of Franklin County will benefit from restoration efforts

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Restoration of Franklin County to condition prior to Hurricane Michael - Franklin County will recover

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

FEMA projects are subject to FEMA procurement and auditing standards

<b>Total State Funds Requested (must equal total from question #6)</b>		<b>7,000,000</b>

## The Florida Senate Local Funding Initiative Request Fiscal Year 2019-2020

### 11. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

Permanent relocation of 2,000 feet of beachfront roadway. Alligator Drive is the sole evacuation route for residents and visitors on a peninsula prone to coastal flooding and erosion.

b. What activities and services will be provided to meet the intended purpose of these funds?

Land acquisition and construction costs will be paid for with these funds

c. What direct services will be provided to citizens by the appropriation project?

Residents and visitors of Alligator Point will be provided with a safe and secure access road

d. Who is the target population served by this project? How many individuals are expected to be served?

2000 Feet of roadway services 442 households on Alligator Point, this road provides the only access for residents and visitors of the area

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Repair will be permanent. Existing beachfront road continues to wash out after every storm event, relocation will ensure safe evacuation route for residents, lasting mitigation for road which will be a huge benefit to the residents, visitors, county, state and federal programs.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

If funded as a FEMA projects, would be subject to FEMA procurement and auditing standards - 10% retainage will also be held back on all construction activities until the project is completed in full.

# The Florida Senate

## Local Funding Initiative Request

### Fiscal Year 2019-2020

#### 11. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

Franklin County Emergency Management's responsibility under ch.252, F.S. is to provide emergency response, recovery, planning, training, and mitigation. During Hurricane Michael, as well as past storms, our mission has proven to be very challenging due to the small size, location, and age of our EOC. A larger, centrally located EOC will greatly enhance our ability

b. What activities and services will be provided to meet the intended purpose of these funds?

EOC activations, training to assist in maintaining NIMS compliance, Community Emergency Response Team (CERT), exercises and educational programs to better plan and prepare for disaster, as well as re-entry tags, grant management, special needs database review, healthcare facility plan reviews, community outreach, coordination, mitigation, response, and

c. What direct services will be provided to citizens by the appropriation project?

Activations, training, exercises, Community Emergency Response Team (CERT), education, re-entry tags, grant management, special needs database, healthcare facility plan reviews, community outreach services, and public notification are some of the direct services that will be provided to the citizens of Franklin County. Our goal is always life safety and to educate,

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population served by the project is all of Franklin County, Florida. As of July 1, 2017, our current population estimate is 11,727. Franklin County has a total area of 1,026 square miles, of which 535 square miles is land and 492 square miles is water which makes our small rural county a popular vacation spot. During the months of June through November

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The expected benefit of this project will enable Franklin County Emergency Management to better serve Franklin County citizens and enhance our efforts to meet our goals of life safety. A centrally located larger EOC allows for more access to residents throughout Franklin County to attend the activities and services provided by Franklin County Emergency Management.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Franklin County will retain 10% of the contractor's payment until the Building Inspector approves the new building.

## The Florida Senate Local Funding Initiative Request Fiscal Year 2019-2020

### 11. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The requested funds will help to extend the useful life of the Franklin County Landfill and allow for storm debris to be efficiently processed

b. What activities and services will be provided to meet the intended purpose of these funds?

Acquisition of additional acreage surrounding the current landfill and purchase of a tub grinder

c. What direct services will be provided to citizens by the appropriation project?

Hurricane debris will be able to be more efficiently processed and also the landfill will be able to accept more debris from future events.

d. Who is the target population served by this project? How many individuals are expected to be served?

All citizens and visitors of Franklin County will benefit from this request as having a landfill with adequate space and equipment will enable quicker clean-up and restoration from future storm events

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The additional land will add years of useful life and this will be seen on the cost closure estimates/useful life calculations done by DEP. Storm debris will be processed more quickly after hurricane events.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Landfill activities and requirements are closely monitored by the Florida Department of Environmental Protection

## The Florida Senate Local Funding Initiative Request Fiscal Year 2019-2020

### 11. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

Restoration of 1,000,000 cubic yards of sand along gulf front Franklin County

b. What activities and services will be provided to meet the intended purpose of these funds?

Contractor and engineers will be selected to replace and stabilize dunes lost during Hurricane Michael

c. What direct services will be provided to citizens by the appropriation project?

Citizens will benefit from the added protection from storm surge and coastal flooding

d. Who is the target population served by this project? How many individuals are expected to be served?

All citizens and visitors of Franklin County will benefit from this request as dunes are the primary line of defense during any coastal surge event

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Full restoration of the gulf front dunes lost during Hurricane Michael

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

DEP will closely monitor the project as DEP will be the permitting agency
