

## **Centric Aviation - Apalachicola Airport – AAF**

Evening All,

Given the uncertainty surrounding the COVID-19 situation, I wanted to be proactive in assuring you that we recognize Centric Aviation's role in providing essential aviation services to Emergency Personnel, Law Enforcement, Medivac, Coast Guard and Military Units that utilize the Apalachicola Airport. We will do everything in our power to continue to remain open, available and ready to provide aviation fueling services, so that these vital flight operations can continue 24/7. We have a great team at the Apalachicola Airport and we will be standing by, ready as always.
